Les fenêtres parcourant deux étages (à gauche) et l'entrée charmante à la salle de bains (ci-haut) profitent toutes les deux de la dernière touche apportée par les cadrages et les blocs de coin. Ces deux accessoires sont offerts dans une gamme de grandeurs et de styles. C'est à vous de choisir l'agencement idéal, que ce soit de style magnifique ou charmant. Que vous voulez utiliser du bois teint de façon luxueuse ou peint d'une couleur assortie, de style traditionnel ou contemporain, vous pouvez embellir les embrasures et les fenêtres grâce à notre grand choix de blocs de coin et de plinthe.

FSC indique que la pièce est "faite sur commande" et que les frais de montage seront payables.
